Description of Proposed Option Coursework

I will complete a program on D2L powered by the Center for Ethics and Socially Responsible Leadership (CESRL) at MSU. Through various modules, I will learn key issues related to being an ethical entrepreneur. I will have opportunities for reflection and application through case studies.

Rationale

Through the D2L program, I will complete a series of modules showing a deep and thorough understanding of key issues in ethics and entrepreneurship. I will leverage skills within the Entrepreneurial Mindset, such as openness, proactiveness and solution seeking.

Work to be Completed

After completing the Ethics & Entrepreneurship Program, I will deliver to my professor a paper, no less than 500 words, reflecting on the experience. This will include:

- A summary of what I learned
- What my values are and how they show up in my life
- How I can apply this learning to my career/life/major
- Feedback on the program

Evaluation Criteria

My professor will be able to successfully sign off when I can display my engagement, learning and effort through a comprehensive reflection paper.

Date of Project Completion

To be determined by Faculty. No later than the last week of classes.
